

PRESS RELEASE

SCHIEBEL EXPANSION IN ASIA

Having just successfully completed delivery of Schiebel's CAMCOPTER® UAV System for the Egyptian Navy and large quantities of equipment to South America, Schiebel are now seeking to expand their considerable presence in Asia.

The ATMID™ All Terrain Mine Detector is now fully developed and proven to meet the wide range of climatic conditions and environments thought the whole of Asia.

The staff needed to implement their policy of a close ongoing technical relationship with customers, are being trained. They are now seeking Agents in those countries where they are not currently represented such as Indonesia, Brunai, and Vietnam.
