

# SCHIEBEL

# UAS FIELD MAINTENANCE TECHNICIAN

- Wiener Neustadt
- Fulltime
- X/W/M
- Immediate entry

The Schiebel Group of companies is a world-wide high-tech electronic enterprise for Unmanned Air Systems (CAMCOPTER® S-100) and Mine Detection Systems. At SCHIEBEL, we are increasing our global operations. Thus we are looking for highly motivated technicians who are willing to travel for long-term deployments and reinforce our teams worldwide. Our highly qualified training team will ensure you are fully trained before deployment (training will take place in Wiener Neustadt, Austria for a duration of two months). Once you have completed your internal qualification training you will become a certified Field Maintenance Technician at Schiebel, after which you will be deployed to different parts of the world (land and/or ship-based operations). As part of our operations and maintenance team, you will be responsible for the scheduled and unscheduled maintenance of the CAMCOPTER® S-100 UAS.

## **Your Duties**

- » Maintain the CAMCOPTER® S-100 for flight operations, tests and trainings in the field
- » Ensure all maintenance and ground operations follow established procedures and are conducted safely
- » Conduct all necessary pre-flight and post-flight procedures, including ground station setup and removal
- » Maintain situational awareness of the air vehicles' technical status and threats to the planned operation(s)
- » Continually re-evaluate risk assessment and appropriate actions to mitigate any elevated risk levels
- » Capture critical information for input into after-action reports and lessons learned

## **Our Requirements**

- » Have good handwork skills from previous experience in an Engineering discipline, preferably in aviation
- » Knowledge in using calibrated measuring equipment
- » Previous experience in manned or unmanned aircraft maintenance would be advantageous
- » Qualified CAMCOPTER® S-100 Maintenance Mechanic would be advantageous
- » Physically capable when performing aircraft mechanic duties
- » Must have the skill to handle small parts, as well as pulling, pushing and lifting up to 50 lbs.
- » Capable at reading, interpreting and following manufacturer and customer technical data (manuals, service bulletins & drawings)
- » Excellent communication skills both, verbally and written in English
- » Capable and have a pro-active attitude towards work completion and with minimal supervision
- » Strong work ethics & team collaboration
- » Highly organized, with excellent attention to detail
- » Reliable, self-motivated, and able to deal with stressful situations and timelines
- » Must be willing to travel worldwide for extended periods of time
- » European citizenship or work permit for the European Union

## **What we offer**

We will provide you a contractor contract with 2 months training and 12 months deployment in Europe, respectively worldwide.

If you are interested in a unique, fast moving and dynamic job profile and seek a professional career in a small but global company that continues to expand, then please apply, preferably by email, to our Human Resources Department, at [work@schlebel.net](mailto:work@schlebel.net).

With your application, you consent to the processing of your data (personal data, application, certificates, etc.) and its storage for the purpose of processing your application by Schiebel Elektronische Geraete GmbH. Your data will be stored for a minimum of 3 years and a maximum of 7 years. If you wish your data to be deleted, please send an email to [work@schlebel.net](mailto:work@schlebel.net).
